

CPSC SENIOR CAPSTONE MAJOR-FEATURES CHECKLIST

The major-features checklist is a list of the broad feature areas, constraints that must be met, and other major items that must be completed for the project to be considered successful. The list of major features should be identified in consultation with your project sponsor and representatives of your target end-user community. The checklist must be initially approved by your project sponsor and faculty advisor. Changes can be made, but must be documented (below) and approved by your project

Team Number CPSC 6
Team Name GUADR (Gonzaga University Autonomous Delivery Robot)

Feature #	Feature Description	Completion Status (*)	Quality Level (*)	Sponsor's Explanation (*)
1	User can specify a delivery endpoint			
2	Robot can deliver items to a user specified location on campus			
3	Robot has safety features			
4	User can place an order on simple web application			

(*) To be added by advisor based on sponsor and team feedback at end-of-year meeting.
Completion status: not started, partially finished, complete. Quality level: unsatisfactory, satisfactory, excellent.

Revision History

For each date, provide a brief description of the change and the date the change was made here.
